

Machining Products and Machining Equipment

Machining Details

(We can perform machining according to drawings of a wide range of products.)

- Die set machining
- Die cast dies and molds
- Automated machine and jig component
- Precision tool products
- Hot work, warm work, and cold work tools and molds, etc.

Die Set Machining Products

Main Machining Facilities

In mm

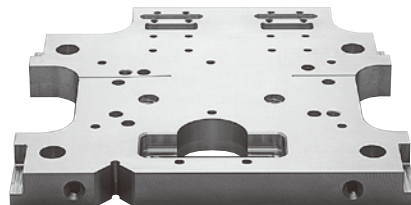

Category	Machine	Maker	Stroke (X×Y)
Cutting machines		Mitsubishi Heavy Industries	3200 X 2500
	Five-face machining center	Shin Nippon Koki	8250 X 4000
	Jig borer	Yasda Precision Tools	1200 X 800
Electric discharge machines	Wire cutting electric discharge machine	ZEDM	1200 X 600
	NC electric discharge machine	Mitsubishi Electric	1000 X 600
	Small-hole electric discharge machine	Elenix	300 X 200

Category	Machine	Maker	Stroke (X×Y)
Cutting machines	Surface grinder	Sumitomo Heavy Industries	4000 X 2080
	High-precision surface grinder	Nagase Integrex	900 X 400
Other machines	Gun drill	Miroku Machine Tool	1000L
	Three-dimensional coordinate measuring machine	Mitutoyo	1500 X 700

Components of other sizes can also be machined.

Precision Machine Tool Products
